風格轉換

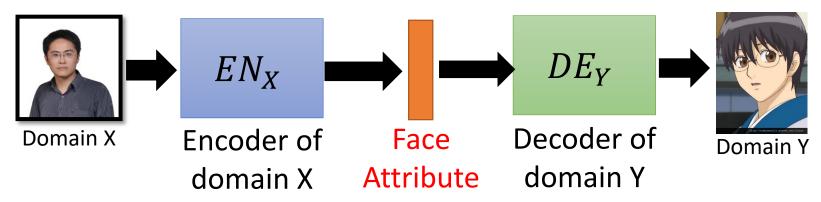

Transform an object from one domain to another without paired data (e.g. style transfer)

Approach 2: Projection to Common Space

Larger change, only keep the semantics

Domain X

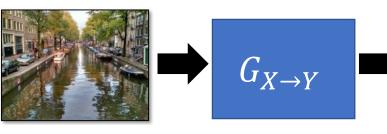

Domain Y

Become similar to domain Y

Input image belongs to domain Y or not

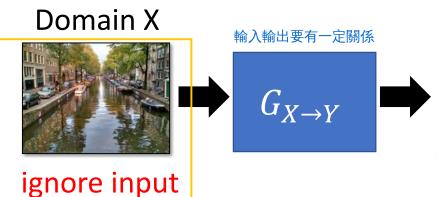

Domain X

Domain Y

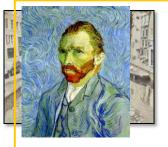

Become similar to domain Y

Not what we want!

Input image belongs to domain Y or not

Domain Y

Domain Y

Domain X Become similar to domain Y

 $G_{X \to Y}$

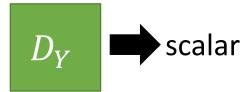

Not what we want!

ignore input

The issue can be avoided by network design.

Simpler generator makes the input and output more closely related.

Input image belongs to domain Y or not

[Tomer Galanti, et al. ICLR, 2018]

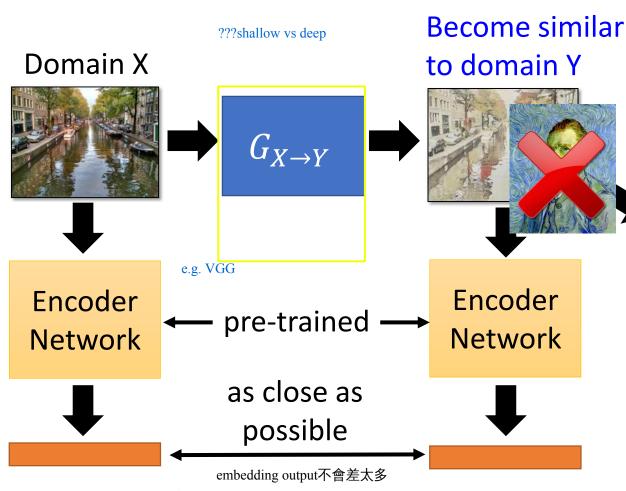

Domain X

 D_Y scalar

Input image belongs to domain Y or not

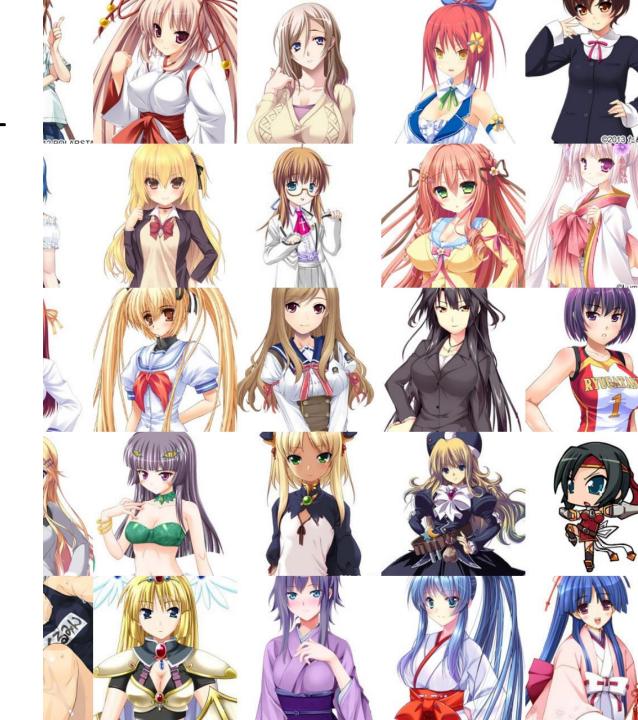

Baseline of DTN [Yaniv Taigman, et al., ICLR, 2017]

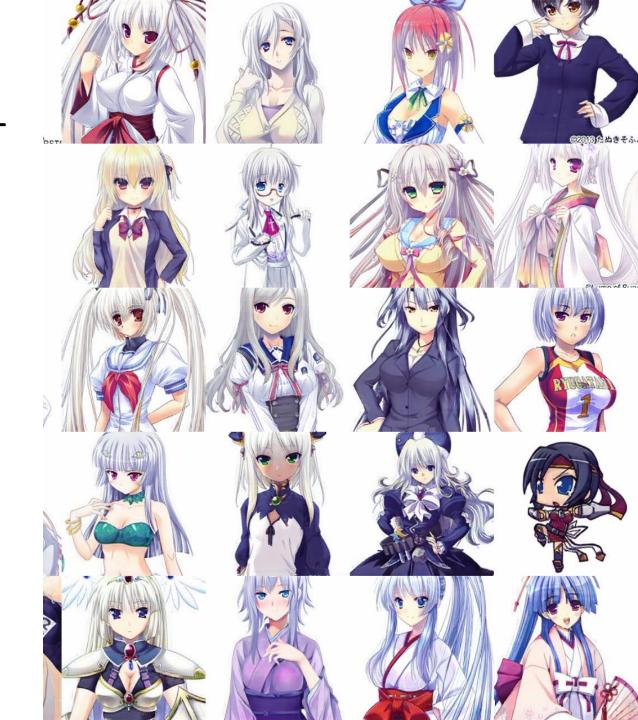

Cycle GAN – Silver Hair

Issue of Cycle Consistency

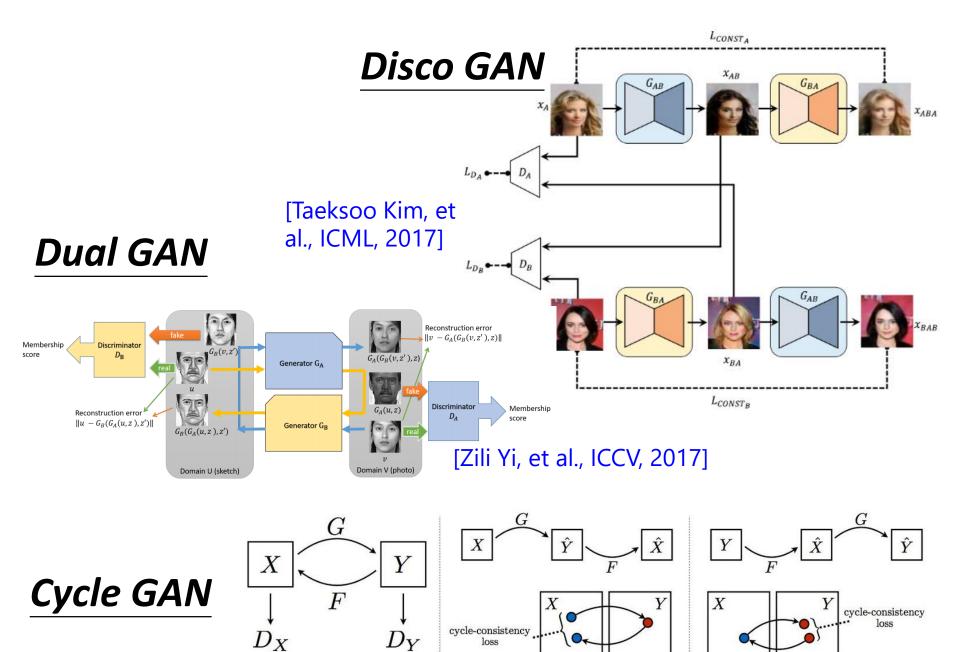

學道方法避掉loss

CycleGAN: a Master of Steganography (隱寫術)

[Casey Chu, et al., NIPS workshop, 2017]

The information is hidden.

(b)

(a)

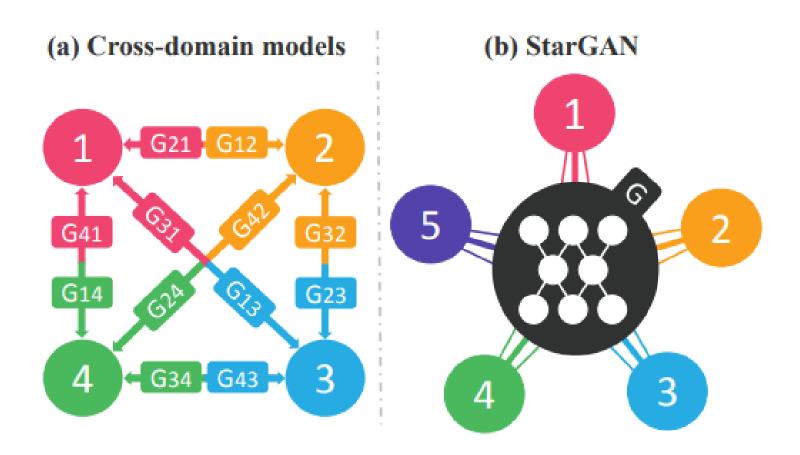

[Jun-Yan Zhu, et al., ICCV, 2017]

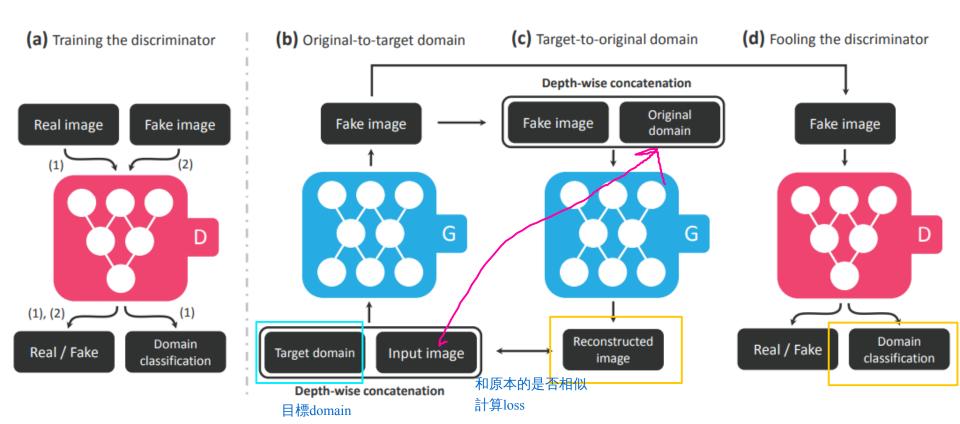

(c)

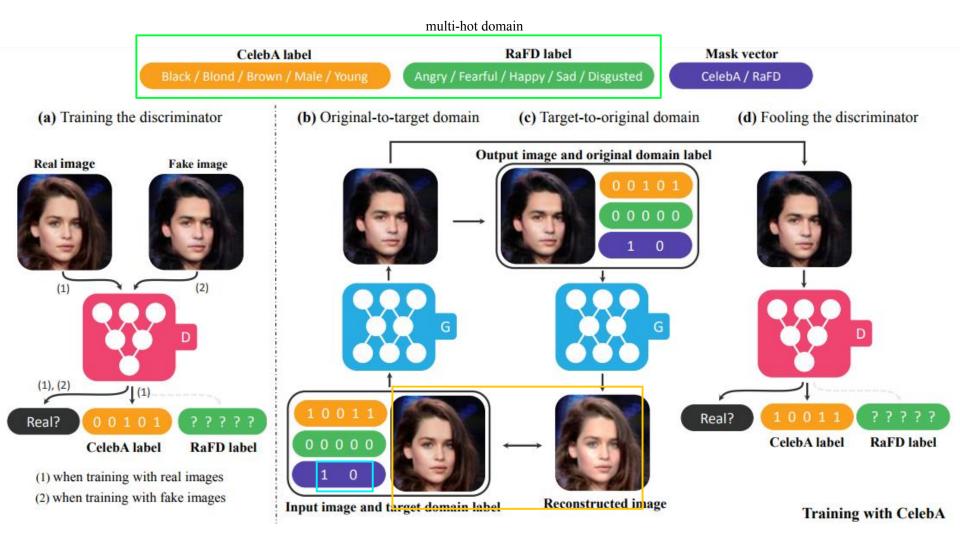

For multiple domains, considering starGAN

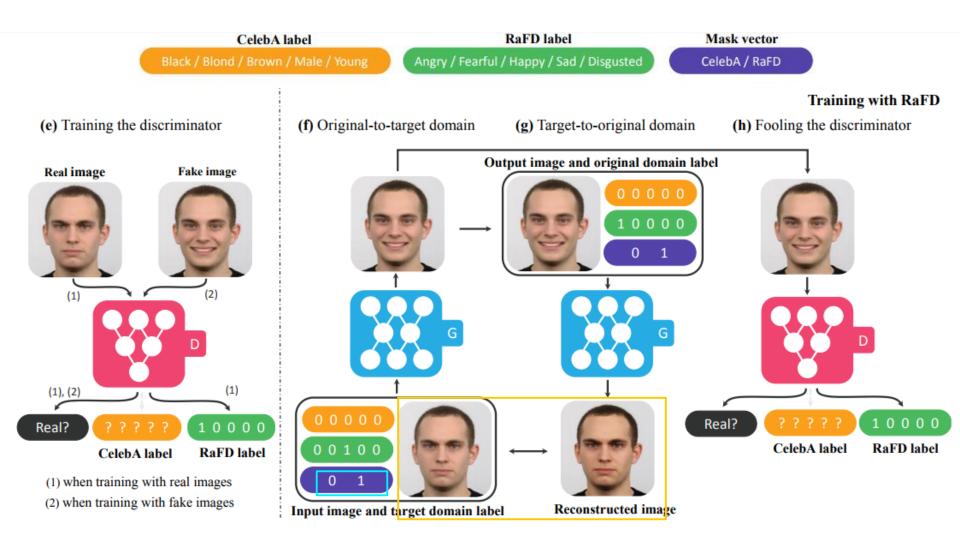

[Yunjey Choi, arXiv, 2017]

p4取2

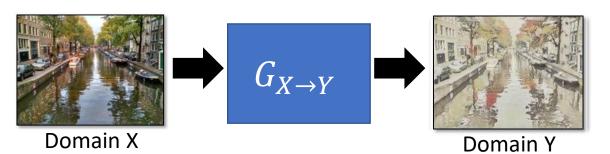

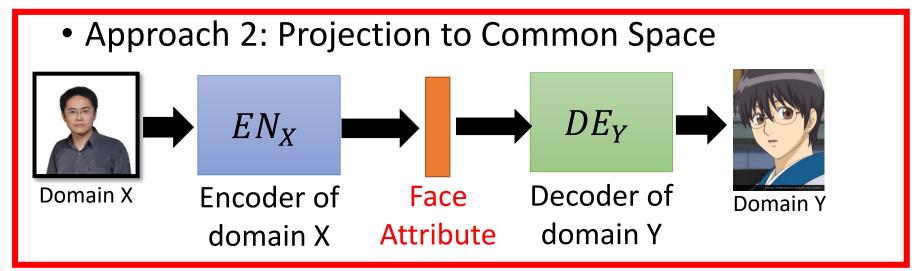

Approach 1: Direct Transformation

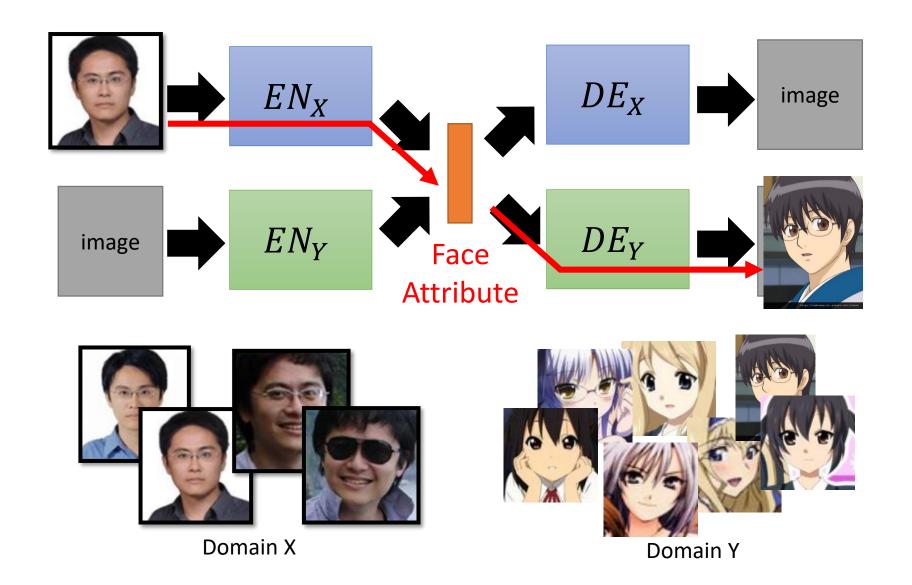

For texture or color change

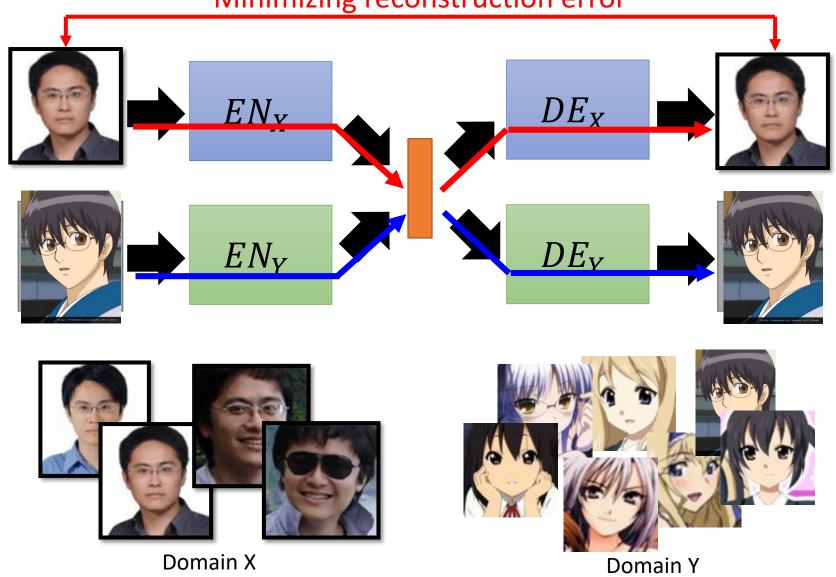

Larger change, only keep the semantics

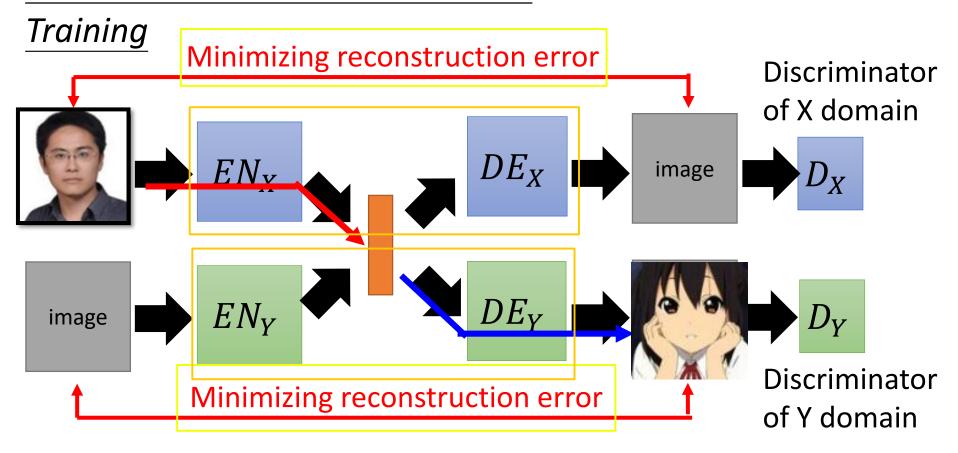

Target

Training

Minimizing reconstruction error

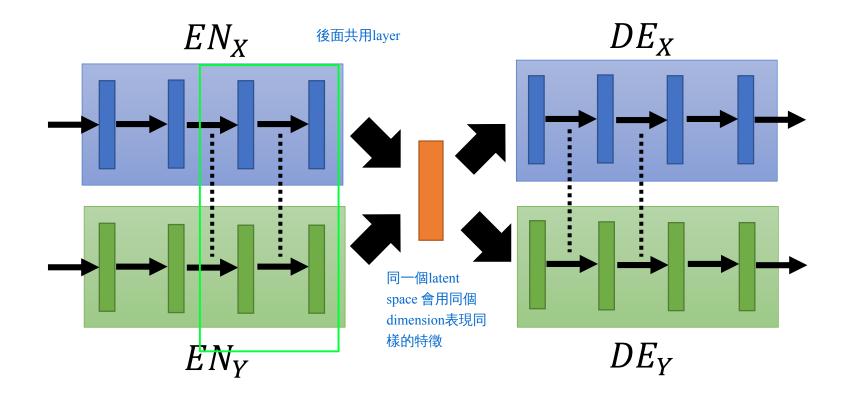

Because we train two auto-encoders separately ...

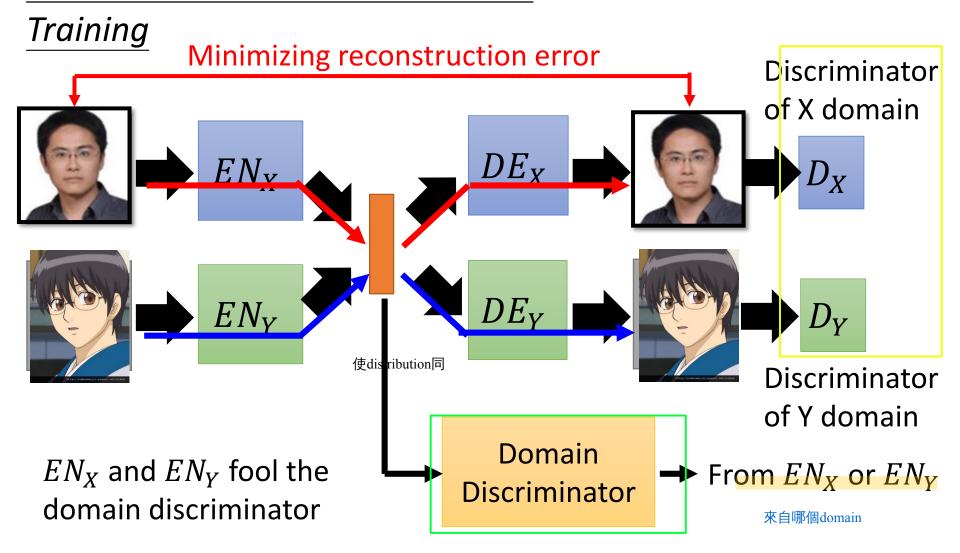

The images with the same attribute may not project to the same position in the latent space.

Training

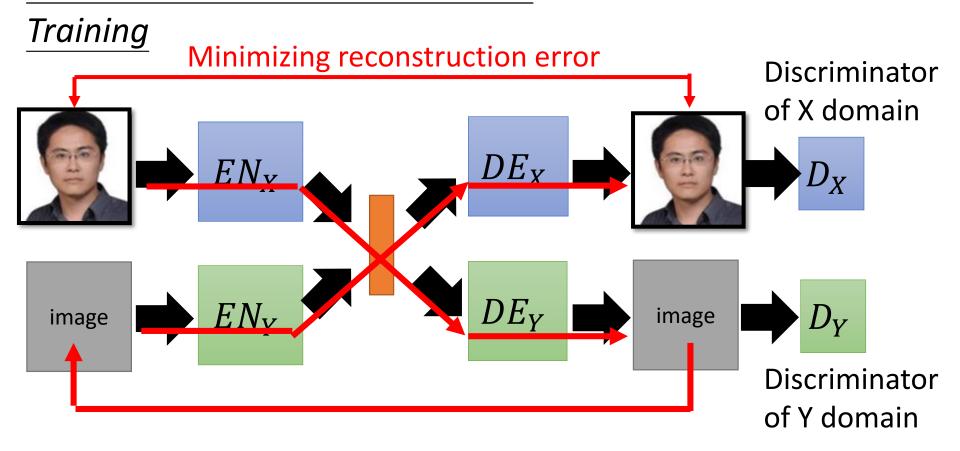

Sharing the parameters of encoders and decoders

Couple GAN[Ming-Yu Liu, et al., NIPS, 2016] UNIT[Ming-Yu Liu, et al., NIPS, 2017]

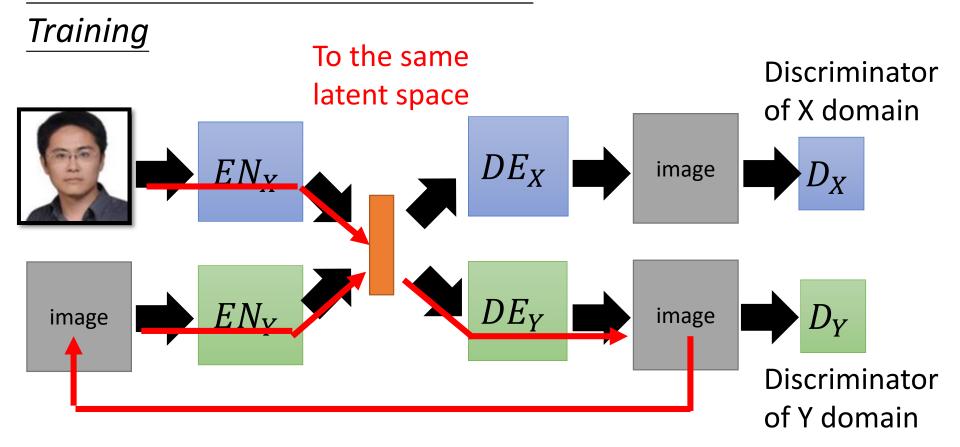

The domain discriminator forces the output of EN_X and EN_Y have the same distribution. [Guillaume Lample, et al., NIPS, 2017]

Cycle Consistency:

Used in ComboGAN [Asha Anoosheh, et al., arXiv, 017]

Semantic Consistency:

Used in DTN [Yaniv Taigman, et al., ICLR, 2017] and XGAN [Amélie Royer, et al., arXiv, 2017]

世界二次元化

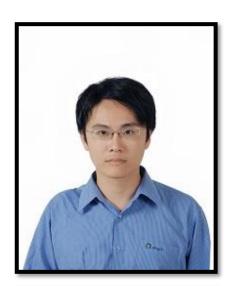

- Using the code:
 https://github.com/Hi-king/kawaii_creator
- It is not cycle GAN, Disco GAN

input

output *domain*

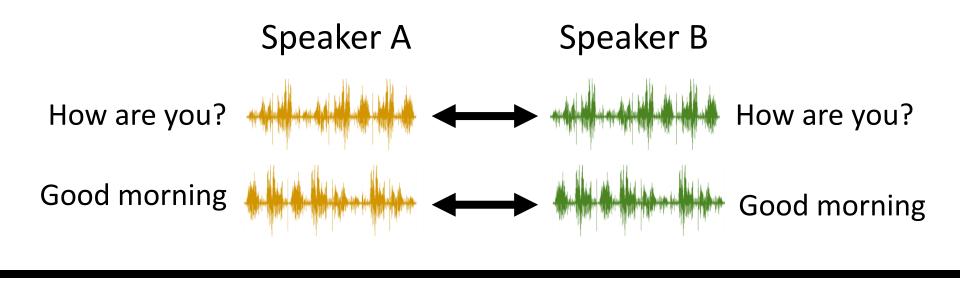

Voice Conversion

In the past

Speakers A and B are talking about completely different things.
